At Enthusiastic Meeting of the Business Men's Club

Held Monday Night-Good Roads the Slogan.

The monthly meeting of the Mt. Sterling Business Men's Club held Monday night, was one of the most enthusiastic and at the same cate for the amount of stock to time one of the best attended meetings the club has ever had. A number of important matters were considered, including the propositions to improve the Paris and Maysville turnpikes. After a general discussion in which many prominent members took part, the Advocate's pet plan to conduct the county's fiscal affairs by commission, was endorsed by a unanimous vote. Every taxpayer in the county should study the commission plan. It is the new, up-totogether with the receipts to the date method and should take the place of the old obsolete Fiscal Court, composed of Magistrates. Watch the Advocate for facts and figures, which will appear in each issue between now and the November election. The fight is on and the people must win.

Report of Candidates Signing the

The following candidates signed and returned the pledge sent them: Rufus Hadden, J. Will Clay. M. J. Goodwin, John F. Richardson, J. H. Blount, Dr. B. M. Manning, Joe. W. Langston, J. T. Barnes, O. W. McCormick. This shows only nine out of twenty, and therefore is not sufficient to make the pledge binding upon those who have signed.

This leaves the matter up to the people of the county, and steps ought to be taken at once to detect and punish every vote buyer in the county. The buyer is worse than the seller and should be prosecuted first. Respectfully.

On Proposed Road From Mt. Sterling to Maysville.

Government Willing to Bear One-Third of Cost.

The Government expert sent here some weeks ago to view the turnpike from Mt. Sterling to Maysville, proposed to be improved with government aid, has filed his report. Our citizens have also been informed that if the whole route cannot be improved, the government will aid in improving the pike from Mt. Sterling to Sharpsburg and it is believed the citizens living along the proposed route will subscribe enough to make the plan a success. The counties of Montgomery and Bath will contribute all they are able fect, so he threw it away and out of the funds available for that grabbed the bull by the head and purpose. It must be borne in threw him to his knees and made mind, however, that the Fiscal Courts cannot go beyond the current year and anticipate future

The Fiscal Government of Jefferson County.

Eight years ago an election was held on the proposition to deprive the Fiscal Court of its business functions, and to have these business affairs of the county of Jefferson put in the hands of a commission of three men, to be selected by the voters of the county at large, and to be taken from three districts.

That was the famous election of 1905, which, after a contest, was set aside. In the excitement of the time, the significance of this vote for a change in the business conduct of the county of Jefferson was lost sight of and no contest was made. The returns showed that Mr. Barth had been elected mayor, and that this proposition had been beaten. Had a contest been made this decision in regard to the county would have been set aside, as was the decision in regard to the mayor. The reform leaders believe-and wisely-that they were not justified in complicating the issues involved in the city election by a contest of the returns upon this proposed change in county affairs. Such a contest would have involved great labor in a new field, and it was not made.

It is now possible for the people once more to vote upon that prorosition. If it fails they must wait eight years longer.

The county is given the right, under the constitution, to determine this matter for itself. There is no possibility of securing adequate results from the taxes imposed, save by a change in the whole business conduct of the county of Jefferson. Our taxes are distributed upon an antiquated system, with vast waste and inexcusable results.

Jefferson county ought to have the best system of roads of any county in the country. It has probably the worse of any county of its character and size. It is the system that is at fault. No doubt contractors and politicians, and local and general bosses, take advantage of this condition of affairs, but it would hardly be possible for able and experienced men of business to conduct the affairs of the county of Jefferson, under the present system, with satisfaction either to themselves or to their constituencies.

It is well, therefore, for the people to consider this and take immediate steps to secure for the county of Jefferson, a modern business organization. In this way we can secure two desirable results: A reduction in the tax rate and increased returns for the money expended.-Louisville

Golden Blos can defeat him in the show ring som is considered by expert critics this year, and "Marvelous Mat" to be the finest mare in the world, Cohen string.

Langhorne Tabb Anderson, of Point Au View Farm, Maysville, has together one of the greatest bunch of show horses in the country headed by the great threegaited mare, Marie Louise, and the famous harness mare, Brilliant Girl. The latter mare will make her first show this year at Mt. Sterling. Maria Louise has been wonderfully successful in the show ring, and is better than ever this good year of 1913. She has ten blue ties to her credit without a man & Peters.—Blue Grass Jour single defeat, and if you fail to nal. see her at the Montgomery County Fair you will miss seeing one of the best in the country.

Kentucky's Selection, Press Ray's candidate for the harness classes this year is said to be far better than she ever was in her life, and this means that all the narness horseshow men will know they have been to a show when they meet her. In his gaited department the "Pennyrile Champion" has some of the best ones he ever had in his stable, chief among them being Flying Hawk, the sensational three-yearold. His black mare, Marcotta, ple. will endeavor to take the measure of the three-gaited horses at the old Montgomery County Fair.

THE GUNS UNLIMBERED.

The war upon the Fiscal Court system of county government which the Commercial Club has inaugurated promises to be a right merry one in which shrapnel and canister will be poured into the enemy to the heroic music of the bugles and drums. The fight in behalf of the continuance of the Fiscal Court as distributor of the county funds will be conducted from ambuscade and with as little of the din of battle as is possible.

The distribution of the county funds has proven a fairly juicy plum. Having to give it up will go against the grain of those who have enjoyed it. The divorcement of patronage from politics is always attended by tears shed by the politicians. Theoretically the duties of the Fiscal Court are somewhat onerous and the compensation is rather inadequate. But a body composed of men elected from magisterial districts and having charge of the county funds has opportunities that can be appreciated by anyone who knows practical politics. The loss of those opportunities is not a matter to be lightly the lecturer friend and on entering and cheerfully considered.

Mr. Atherton and the Commercial Club should win the fight, and must win it. But let nobody hang his shooting irons upon the buckhorns over the door before election time, feeling that the woods are cleared of the savages, for the Indians of petty politics die hard and are very much inclined toward unostentatious efforts to promote their longevity.-Courier Journal.

The season for campaign lies is at hand, so when a candidate, or one of his henchmen, walks up to you, dear reader and tells you "very confidentially" that his opponent has combined with the opponent of some warm friend of yours, in another race, or has joined some slate or pool, don't be too credulous. The chances are ten to one that you are being imposed upon.

The fair will open on Monday, Aug. 11, at ? p. m., when an attractive racing program has been arranged, interesting show rings will be seen, and Liberati's Great Band and Concert company, with some of the best soloists and grand opera singers known to the musical world will be here. Six singers in costume will be heard in front of the grand stand every evening, and there is a great treat in store for the music loving public of the Blue Grass region.

The management of the fair, believing that the public demand a change from the old carnival line, have decided to put on a high class vaudeville show, every act a headliner, six big acts for one admission. A bill as good as can be seen in any high class vaudeville house in the country. An entire change of program and players on Thursday, Aug. 14, two performances daily.

He worked his pacing horse, Tommy, a nice mile in 2:22t, and gave his three-yearold trotters some slow miles. Both of them are full of speed and will be ready for the races when called upon. His other horses are doing nicely. In the Bean barn Charles Bean gave all his charges some slow slow work, and they are in the pink of condition. He stepped Lucile Brooks a mile in 2:15 Tuesday with the first eighth in 16 seconds and down to the half in 1:061, and she could have finished the mile in 2:12, but this careful driver took her back and let her come home easily. Lucile looks better than she ever has in her life, and bids fair to go a merry clip in July at the Fair. Mr. Bean has turned his two-year-old mare, Nell Tregantle, out for a while and will take her up later. She is a big, growthy mare and just needed a little rest. All of the horses at the track are in a healthy, firstclass condition and are doing fine.

John M. Barnes has brought his fast pacer, Orphan Boy, home from Ohio and will rest him up. This colt is one of the fastest pacers living and it is hoped by Mr. Barnes' many friends and the admirers of this fast colt that he will be allowed to start in the free-for-all pace at the Fair here in July, believing that he will give a good account of himself.

Did you ever realize that the greatest kicker in the world is a jackass? Did it ever dawn on you that this is just as true of THE TWO LEGGED KICKER as of the four legged one?

For example, who could be a more perfect jackass than the man who kicks bout his own town?

The ass kicks because he is built that way, and the man kicks because he built the same way

The ass usually has something to kick at, but the man often kicks about othing at all.

Get out of the kicking habit and be a booster.

It pays—pays the individual and pays the community. Wouldn't you rather live in a GOOD town than a POOR one?

All right, then; help to make your town a good one. Talk it up, arouse the town spirit, GET EVERYBODY TO BOOSTING.

Anybody can kick, but it takes a good man to boost.

Be a good citizen: Get the habit!

The hog market is firm and high and good porkers are selling right around the \$9 mark. This market has been steady and strong for many weeks and it is believed by those men in the leading market centers that hogs will reach \$10 by Christmas time. Other stock is selling equally as well and there is little or no reason why the men having stock to sell cannot make good money this year. Meadows of No Account.

Reports from all over Central Kentucky show that meadows are in bad condition, and the yield of timothy will practically be nothing. In most of the fields very little timothy will be gotten, but clover meadows are a little better. The loss of the timothy was caused by the early drouth and from all indications it is believed, that this crop will be much scarcer than for several years. If you have some good timothy hold to it and you will get a good price, as it would surprise no one to see timothy hay reach \$25 and \$30 a ton by the good old winter time. -Blue Grass Journal.

GOVERNMENT REPORT

pike, and was thereafter maintained as a toll road until about ten years ago. From local reports, it appears that as a toll road the maintenance was unusually satisfactory, and the entire road was kept in uniformly good condition.

The surfacing material is local limestone, which occurs abundant. ly in the characteristic thinly bedded formation in this locality, and being of a soft variety, provides a material which bonds readily, but under heavy traffic wears out rapidly, producing quantities of disagreeable dust. In Montgomery county, leaving Mt. Sterling, the road varies in width from 20 to 8 feet. Throughout the county the width is generally above 12 feet, but the surface is very uneven, irregular in alignment, more or less filled with chug holes, and in all sections recently repaired, is covered with loose stone that would be classed as No. 1 stone for macadam work. The presence of this large stone used in repairs, defeats its purpose by forcing the traffic to one side or the other, and verts will be necessary in a syswherever traffic is forced beyond tematic re-construction of the the limits of the metal surface, the road, although it is not essential edges are badly raveled and bro at this time that all be placed: ken down. The depth of stone varies considerably, and probably Sharpsburg: cannot be considered effective above an average of five or six inches over any considerable length.

NEEDED REPAIRS.

For the purpose of a preliminary estimate as to the probable cost of improving the section in Montgomery county, it is estimated that entire surfacing will have to be placed on 25 per cent. of the length, and resurfacing on 75 per cent.

From Hinkston Bridge, where the road crosses to Bath county to the village of Sharpsburg, the road follows a small stream, which floods after very heavy storms and inundates the road at various points for a mile and a half. The entire distance of three miles between Hinkston Creek and Sharpsburg, including the low section on the bottom lands, will have to be entirely regraded and resurfaced. From Sharpsburg northward to Bethel, the road should be resurfaced over the entire distance for a width of 15 feet. From Bethel to Sherburne, the road continues the approximately 15 feet effective width, and will have to be resurfaced over about 90 per cent. of the distance. The balance will have to be entirely reconstructed.

At Sherburne, the road crosses the Licking River on a substantial wooden lattice bridge, now maintained as a toll bridge. Northward from Sherburne the grade is heavy for a mile and a half, but it is doubtful if any relocation can Rolling...... 0.025 be attempted with the funds at No. 2 stone and bond (3" loose and 0.8" present in sight, especially because if relocation is undertaken, it Spreading should only be done after a careful Rolling 0.050 study, and the new line should be Quarrying (1,150 cu. yds. rock @ located with a maximum 5 per

cent. grade, and constructed in as Crushing (1720 cu. yd. loose crushpermanent a manner as possible. This will require cansiderable added distance and would cost more than could possibly be allowed from the joint fund for this project. It is therefore contemplated that from Sherburne to Flemingsburg only such slight changes as are imperatively required to straighten the traveled way shall be made, and the entire section resurfaced to the width of 15 feet.

From Flemingsburg to Maysville, the road is in much better Drainage 2500.00 condition than to the South, and as far as Wedonia it is recommended that the road be resurfaced. At Wedonia, the road passes into Mason county, and from that point to the North Fork, the road should be resurlength. From North Fork to Drainage 1600.00 Maysville, no construction work is contemplated, except trimming the shoulders and clearing the ditches This section of the road is in much the better condition of any, by the Mason county authorities.

Saturday to visit friends

Mrs. Thomas Latterfield and Mrs. Lesling visited the tamily of Wm. Warner at Owingsville Friday and Saturday.

The many friends in this section, of Mrs. James Leach, deeply regretted to learn of her death at Mt. Sterling, Thursday.

Our old friend McCreary told us in 1911 that he wanted Governorship of Kentucky to round up his political career. We don't think there is going to be any serious objection to him "rounding it up" with that.

Mrs. Jas. L. Gregory and children, of North Middletown, visited the family of Thomas Warner, Saturday and Sunday.

Robert Pierce Tipton badly injured one of his limbs Thursday while riding on a wagon, as the wagon was being turned, his limb got caught between the wheel and

Bert Saunders, wife and son, Roy, visited relatives at Little Rock, Saturday and Sunday.

GREED CAUSED SNAKE'S DEATH.

A snake in search of food at East St. Kilda, near Melbourne, Australia, writes our correspondent, came upon a chicken's egg. The snake sucked in the egg, which passed towards the region of his tail in the form of an oval swelling. The snake then raised its head and, perceiving a knot-hole in the wooden henroost wall, inserted its head and the fore part of its body and swallowed a second egg.

On the approach of the owner of the henroost the snake tried to retire, but the second egg would not pass through the knot-hole, and when he tried to advance the egg in his tail equally impeded his progress. Thus "egg-bound" at both ends, the
